

Minimal 2 vie V-6200

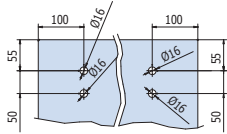

Quando il profilo è tutto. La suggestione del movimento opposto e combinato della trasparenza degli scorrevoli qui riposa su una soluzione tecnologicamente geniale e insospettabile, ma al tempo stesso esteticamente raffinata.

When the profile is the essential. The suggestion of the movement opposed and combined to the transparency of the sliding parts here lies on a solution technologically genial and unsuspected, but at the same time aesthetically refined.

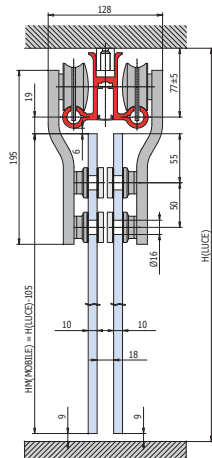

Das Profil ist das Wesentliche. Die mögliche Bewegung lässt die Leichtigkeit der Schiebeelemente durch eine geniale technische Lösung erahnen und erhöht unerwartet die Ästhetik.
