Dettagli essenziali per il vetro temperato

Il sistema in soli 55 mm racchiude un meccanismo eccezionale.

El sistema en solo 55mm reside un mecanismo excepcional.

The system in only one 55mm it is including a special mechanism.

Das System schließt in erst 55mm ein außenordentliches Mechanismus ein.

FLO 55mm

SISTEMA COMPATTO • SISTEMA COMPACTO
COMPACT SYSTEM • KOMPAKTES SYSTEM

Colcom presenta un nuovo sistema scorrevole con veletta per porte in vetro: FLO.

Di facile installazione, FLO permette la **regolazione di messa a bolla direttamente da terra** senza inutili e complessi dispositivi. Munito inoltre di un innovativo sistema di **ammortizzazione regolabile**, con FLO, avrete la possibilità di rallentare le fasi di apertura e di chiusura dell'anta proprio in funzione del peso della stessa. La portata è garantita fino a 100 kg (con 2 pinze e 150 kg con 3 pinze).
Il suo design, estremamente sottile ed essenziale lo rendono integrabile in qualsiasi contesto architettonico nonché con sistemi per vetrate continue ai quali contribuisce a dare continuità e leggerezza.

Colcom presenta un nuevo sistema de puerta corredera con tapa embellecedora para puertas de vidrio : FLO

De fácil instalación, FLO permite la **regulación de puesta a punto directamente desde el suelo** sin utilizar complejos dispositivos. Provisto de un innovador sistema de **amortiguación regulable**, con FLO tendrá la posibilidad de ralentizar la apertura y cerrado de la puerta en función del peso de la misma. Soporta hasta 100 Kg (con 2 pinzas y 150 kg con 3 pinzas).
Su diseño, extremadamente sútil y esencial lo hacen integrable en cualquier contexto arquitectónico y para sistemas de vidrios continuos al cual contribuye a darle continuidad y ligereza.

Freno regolabile - Freno regulable
Adjustable brake - Regulierbare Bremse

Colcom presents a new sliding system with spandrel panel for glas door , namely FLO.

FLO is easy to install , it allows the **bubble levelling adjustment directly on the floor** without any devices. Also, it is equipped with an innovative system which allows an **adjustable damping**; in using FLO You will have the possibility to moderate the opening and closing stage of the glazed on the basis of its weight. The capacity is guaranteed till 100 kgs. (with 2 pincers and till 150 kgs with 3 pincers).
Its design which is extremely required and subtle , allows it to be arranged in every context : architectural as well as continuous glazing wall thanks also to the continuity and lightness of the components.

Colcom schlägt ein neues Schiebesystem mit Anlauf für Glastüren vor: FLO.

Von einfacher Installierung, FLO erlaubt die **Nivellierungsregulierung direkt vom Boden** ohne nutzlose und komplizierte Vorrichtungen. FLO hat ein innovatives System von **regulierbarer Dämpfung** und ermöglicht, die Öffnungs- und Schließungsphasen des Flügels in Funktion seines Gewichtes zu verlangsamen. Die Tragfähigkeit ist bis 100 Kgs (mit 2 Zangen und 150 Kgs mit 3 Zangen) garantiert.
Sein sehr schmales und minimales Design erlaubt die Integrierung in irgendwelchen architektonischen Kontexten, auch mit Systemen von andauernden Wänden, zu denen es Kontinuität und Leichtigkeit gibt.
